I had my OA on 08/20/2019, the two questions i was asked were Log file and Treasure Island. Please note that they are not the exact same problem but the concept is the same. I had done the Log file question on LC and gotten 90% efficiency along with passing all of the test cases, however on the OA my code was having a runtime error. I had figured out the issue and passed all 23 test cases. As far as treasure island goes, i only passed 15/16 test cases all in all i think that's a pretty good performance waiting on a call now.

btw huge shoutout to @Sithis for creating the list and continually updating. Thanks!

Anyone who wants to prepare for Amazon Leadership Principles (LP), you can go through this article. It is really helpful. Published by an Amazonian hiring manager himself.  
Thank me later.

Did anyone finish the 3 virtual interview rounds for the new grad position? If yes, can someone share their experience? Thanks.
